

PRESIDENTS MESSAGE FOR JANUARY 2026.

Here we go for another year. The festive season has finished.

At the board meeting last night it was decided to hold the Special General Meeting on 20th February at 7pm. The purpose of this meeting, inter alia, is to inform members of the financial position for the following year. Membership and facility fees generally will increase by 5%. (Cost of living was about 7.5%). PLEASE RECORD THIS DATE IN YOUR BUSY SOCIAL DIARY.

There seems to be confusion amongst some members about the rules re the work berth. You can book 2 days at a time. If, when your second day is nearly completed and the next day is vacant, THEN, it can be booked. If you have a longer need for a project, i.e. window replacement, major paint job etc.etc. You should contact Richard Steel or I and explain your needs. WE will then initial your entry, (if permission is granted.). ONLY one weekend per month.

Thank you for those that are using a PAC dinghy then returning them to the dinghy storage area, after accessing their craft. They are there for all PAC members.

Nothing happened in the waterfront fixing up over the festive season. We are still waiting for approvals from the numerous bodies that appear to have say in the development. We are hoping to submit the DA to council soon. Thanks to Kevin Shanahan and Lindsay Holloway for their work on this project.

Thanks to all that help to keep this club functioning.

Alan Barnes
