

PRESIDENTS REPORT MARCH 2026

This is the last month of this financial year for the club. Invoices, for those wishing to continue as members of the club, will need to pay the clubs fees before 31 March. Your gate tags will probably not work from 1 April. You cannot expect to have access to a club you are not a member of. You have been given 6 weeks to pay.

All slip payments etc finish on 31 March. We do not carry over year to year. You have had 12 months to sort it all out.

Most fees go up 5% from 1 April. Work berth fees go to \$15 daily. We hope Frans is back from his holidays to update the website. Thanks to Frans our website contains a wealth of knowledge about the club, read it.

We have had a couple of noise complaints from our neighbours. No noise at all after 1pm on Saturday, Sundays and Public Holidays. We are blessed to have understanding neighbours who are very understanding re club issues. We are in a residential area, so please keep an eye on the clock and try to keep noise to a minimum.

No oil is to be left at the club. It is your responsibility to take any oil away from the club. The same applies to anchor chain and other bulky waste. Whilst on waste, before placing cartons etc into the waste bin please flatten same. Same goes to other containers. Don't be selfish/lazy, leave room for others. Notify Richard re old batteries.

We are still waiting for permission from various stakeholders who all have a say in our Seawall. We all know how fast government departments work. We are hopeful that we can submit our DA soon. You will be informed.
