

QUICK PRESIDENTS REPORT MAY, 2026

After a severe storm last Wednesday night it was discovered on the Thursday morning that our electronic door locking system was outed. (Technical term). After numerous calls by Lindsay we acquired the service of our technician who arrived later that afternoon. (They have been extremely busy as a result of the storm). Several hours were spent trying to fix the system to no avail. Long story short. The only door which opened is the down stairs kitchen (so far). After many thoughts, the upstairs kitchen window was smashed and entry gained to upstairs. Those desiring use of toilets will have to use the upstairs toilet. Entrance is through the sliding door on the western side. Please do not try to open any external doors, excepting the sliding door. We cannot gain entry to the office, however, we do not anticipate any trouble with the normal running of the club. The ramp is also a victim. It has been roped open. Don't touch it. I would like to thank Ross Taylor, Richard Steel, Bob Cooper, Chris Alldritt and Lindsay Holloway for the time and assistance given to help resolve the problem.

A couple of non-financial of members have been sent a notice to expel them from the club. Time finishes Sunday night midnight.

The required work on the waterfront is slowly proceeding towards a DA. Waiting on the Lands Department at the moment.

Reminder. Workberth hours. 7am to 7pm.
