

## PRESIDENTS MESSAGE FOR MARCH/APRIL 2025

Hi All. Invoices are out. Those of you that have paid, and referenced the invoice number, a big thank you. Those of you that have received an invoice which is incorrect (blame the computers). DO NOT PAY THE INVOICE. As it stands when an invoice is issued, a copy is forwarded automatically to Xero. If the invoice needs to be altered, at the moment this must be done manually which means, our Treasurer James Aston, Accountant Chris Bregenhoj and I meeting on a Saturday morning to sort out the invoices. Hopefully, by this Friday 14<sup>th</sup> the system can be fixed by Pro Data so that any alterations made will be automatically adjusted to Xero. Contact me if you have an invoice alteration. I will get back to you hopefully after this Friday. The new outstanding invoice button works. Three invoice reminders have been sent out. If your tags does not open the gate it is because a] you have not paid your invoice. Or b] you have a vessel with an incomplete MVD.

We are going to attempt to hold a First Aid course this May, June. We will need numbers to decide if there is sufficient interest. Members cost will be \$100, non members \$150. This course will only be held if we have sufficient numbers. Let us know of your interest on...[info@paclub.com.au](mailto:info@paclub.com.au).

Workberth hours are from 7am daily. If you are there overnight make sure to contact the next user as they may be getting tradesmen in early next morning. Be fair.

ALAN BARNES
